CAREER OBJECTIVE

As an accomplished developer, I prioritize attention to detail and strive to craft digital experiences that captivate users. I boast exceptional technical prowess in software and applications, excel in tackling challenging projects, and possess outstanding time management skills.

WORK EXPERIENCE (INTERNSHIP)

Prolog Infotech

May 2023 - June 2023

- In my role as a Software Engineer intern at Prolog Infotech, I acquired practical experience in the design, implementation, testing, and debugging of software solutions. Moreover, I honed my ability to collaborate effectively within a team and had the opportunity to demonstrate my skills.

BrainyBeam Infotech

May 2024 - June 2024

- During my internship at BrainyBeam Infotech, I immersed myself in Android app development, gaining invaluable hands-on experience and showcasing strong teamwork capabilities.

Prodigy Infotech

June 2024 - July 2024

- At Prodigy Infotech, as an android developer, I specialize in designing and developing Android applications tailored to provide high-performance solutions that elevate user experience.
